

MOVING STUDENTS *FORWARD*

ANNUAL GIVING REPORT 2020

Clackamas
Community College
FOUNDATION

THANK YOU!

The students of 2020 will be known as the most resilient and agile class in Clackamas Community College's history. In a time when it would have been easy to quit their education, they persisted. When asked to move their learning from the classroom to online in their living rooms, they successfully made that transition. They have proven that even in the hardest of times, they can overcome.

However, they did not make it alone. They had your help. In a year of unrest, a world pandemic, and devastating wildfires, you stepped up to support our students, their families, and our community. Despite the hardships of last year, I've witnessed many acts of kindness and dedication to the college and our students.

On behalf of the college community, I thank you for your continued support. In the time of greatest urgency, your generosity and your commitment to our students warms my heart. Thank you.

With gratitude,

Dr. Tim Cook
Clackamas Community College President

2020 began with such hope for Clackamas Community College and the Foundation. With President Tim Cook beginning his second full year and Foundation Executive Director John Chang in his first full year, our boards, staff, and students were eager to work together to advance our shared visions and initiatives. No one could have predicted what a difficult year it would be. But these challenges did not fade the collective hope of our students, staff, donors, and community, who stepped in, stepped up and responded to crisis after crisis in the most compassionate and committed way imaginable.

I am in awe of our foundation staff who managed a banner year for donations. I am proud of our students who persevered. I am humbled by the generosity of our community of donors who did not hesitate to respond to our students in need.

You have made it easy to hold onto hope. You kept moving students forward. Thank you.

Jamie Damon
CCC Foundation Board President

PERSEVERANCE

during the pandemic

In March, the COVID-19 pandemic caused Clackamas Community College and the CCC Foundation to quickly pivot all operations to safely serve and educate students. Many of our students suddenly faced incredible hardships, but you stepped up. You stood in the gap during an unprecedented challenging time, and you kept students moving forward.

The leadership of the Foundation and donors like you made **\$200,000 available to our Covid-19 Student Relief Fund**. These funds helped hundreds of students by providing resources to overcome educational barriers caused by remote learning, such as laptops and technological support as well as textbooks and materials. In addition, emergency grants of up to **\$500 per applicant**, for needs such as groceries or rent, were awarded to students who faced a financial hardship due to COVID-19. Your generosity made it possible for these students to continue their education uninterrupted despite these sudden challenges presented by the pandemic.

The Covid-19 pandemic also inspired us to acknowledge the courage of others during the year. President Cook did one of the most unique things to honor community members: He ran marathon. "It was a marathon of one," he teased, "I took first place and set a course record."

President Cook is a regular marathon runner, having completed more than 30 marathons to date, and this one was special to him. Thirteen laps around the campus provided him a way to honor first responders and those impacted by the pandemic, one lap at a time. The last lap was the most meaningful as it honored the 2020 graduating class. Way to go President Cook, we appreciate you, too!

Graduation was just one of many things that the COVID-19 pandemic affected. CCC quickly adapted and held a drive thru graduation so they could safely honor and celebrate our graduates who had persevered through extraordinary circumstances.

HONORING NURSES

Last spring we came to appreciate our healthcare workers, more than ever before, for the heroes they are. This includes the amazing students and instructors of CCC's nursing program.

Sadly, due to COVID-19 restrictions, many families were unable to mourn loved ones who passed away in 2020. Last year, the CCC community lost two incredible nurses - alum Dione Hubred '02, and retired faculty, Geraldine "Gerry" Harrington. We want to take this opportunity to honor them.

Nurse Dione Hubred 1970-2020

After graduating high school, Dione served for four years as a Navy field medic. Shortly after becoming a mom to Lars Hubred in 1994, she started working toward her nursing degree at Clackamas Community College. She was an incredibly hard worker, balancing raising Lars as a single mom and working nights as a CNA while finishing her degree. Dione graduated from CCC in 2002 and began working at Portland Providence, where she spent her entire nursing career. Dione continued to work nights as a charge nurse, while building a tight-knit web of colleagues in the nursing field who became close friends. Always thinking of others, providing humor and a booming laugh, and inspiring her friends in family with her fighting spirit, Dione is a profound loss to our community.

You can find more details of Dione's life at give.clackamas.edu/nursedione.

Nurse Geraldine "Gerry" Harrington 1924-2020

In 1968, Gerry was the second faculty member hired for a new nursing program being established at Clackamas Community College. As one of the founding instructors, Gerry taught from her experience as a nursing graduate during World War II and her service all throughout the state. She taught at CCC from 1968 until her retirement in 1987. To honor her contribution to student success, her colleagues started an endowment in her name when she retired. The Geraldine Harrington Endowment provides scholarships to nursing students who excel in the clinical setting and who possess a gift for delivering quality care.

For more information on Gerry's incredible life, visit give.clackamas.edu/harrington.

**CCC
NURSING
IN 2020**

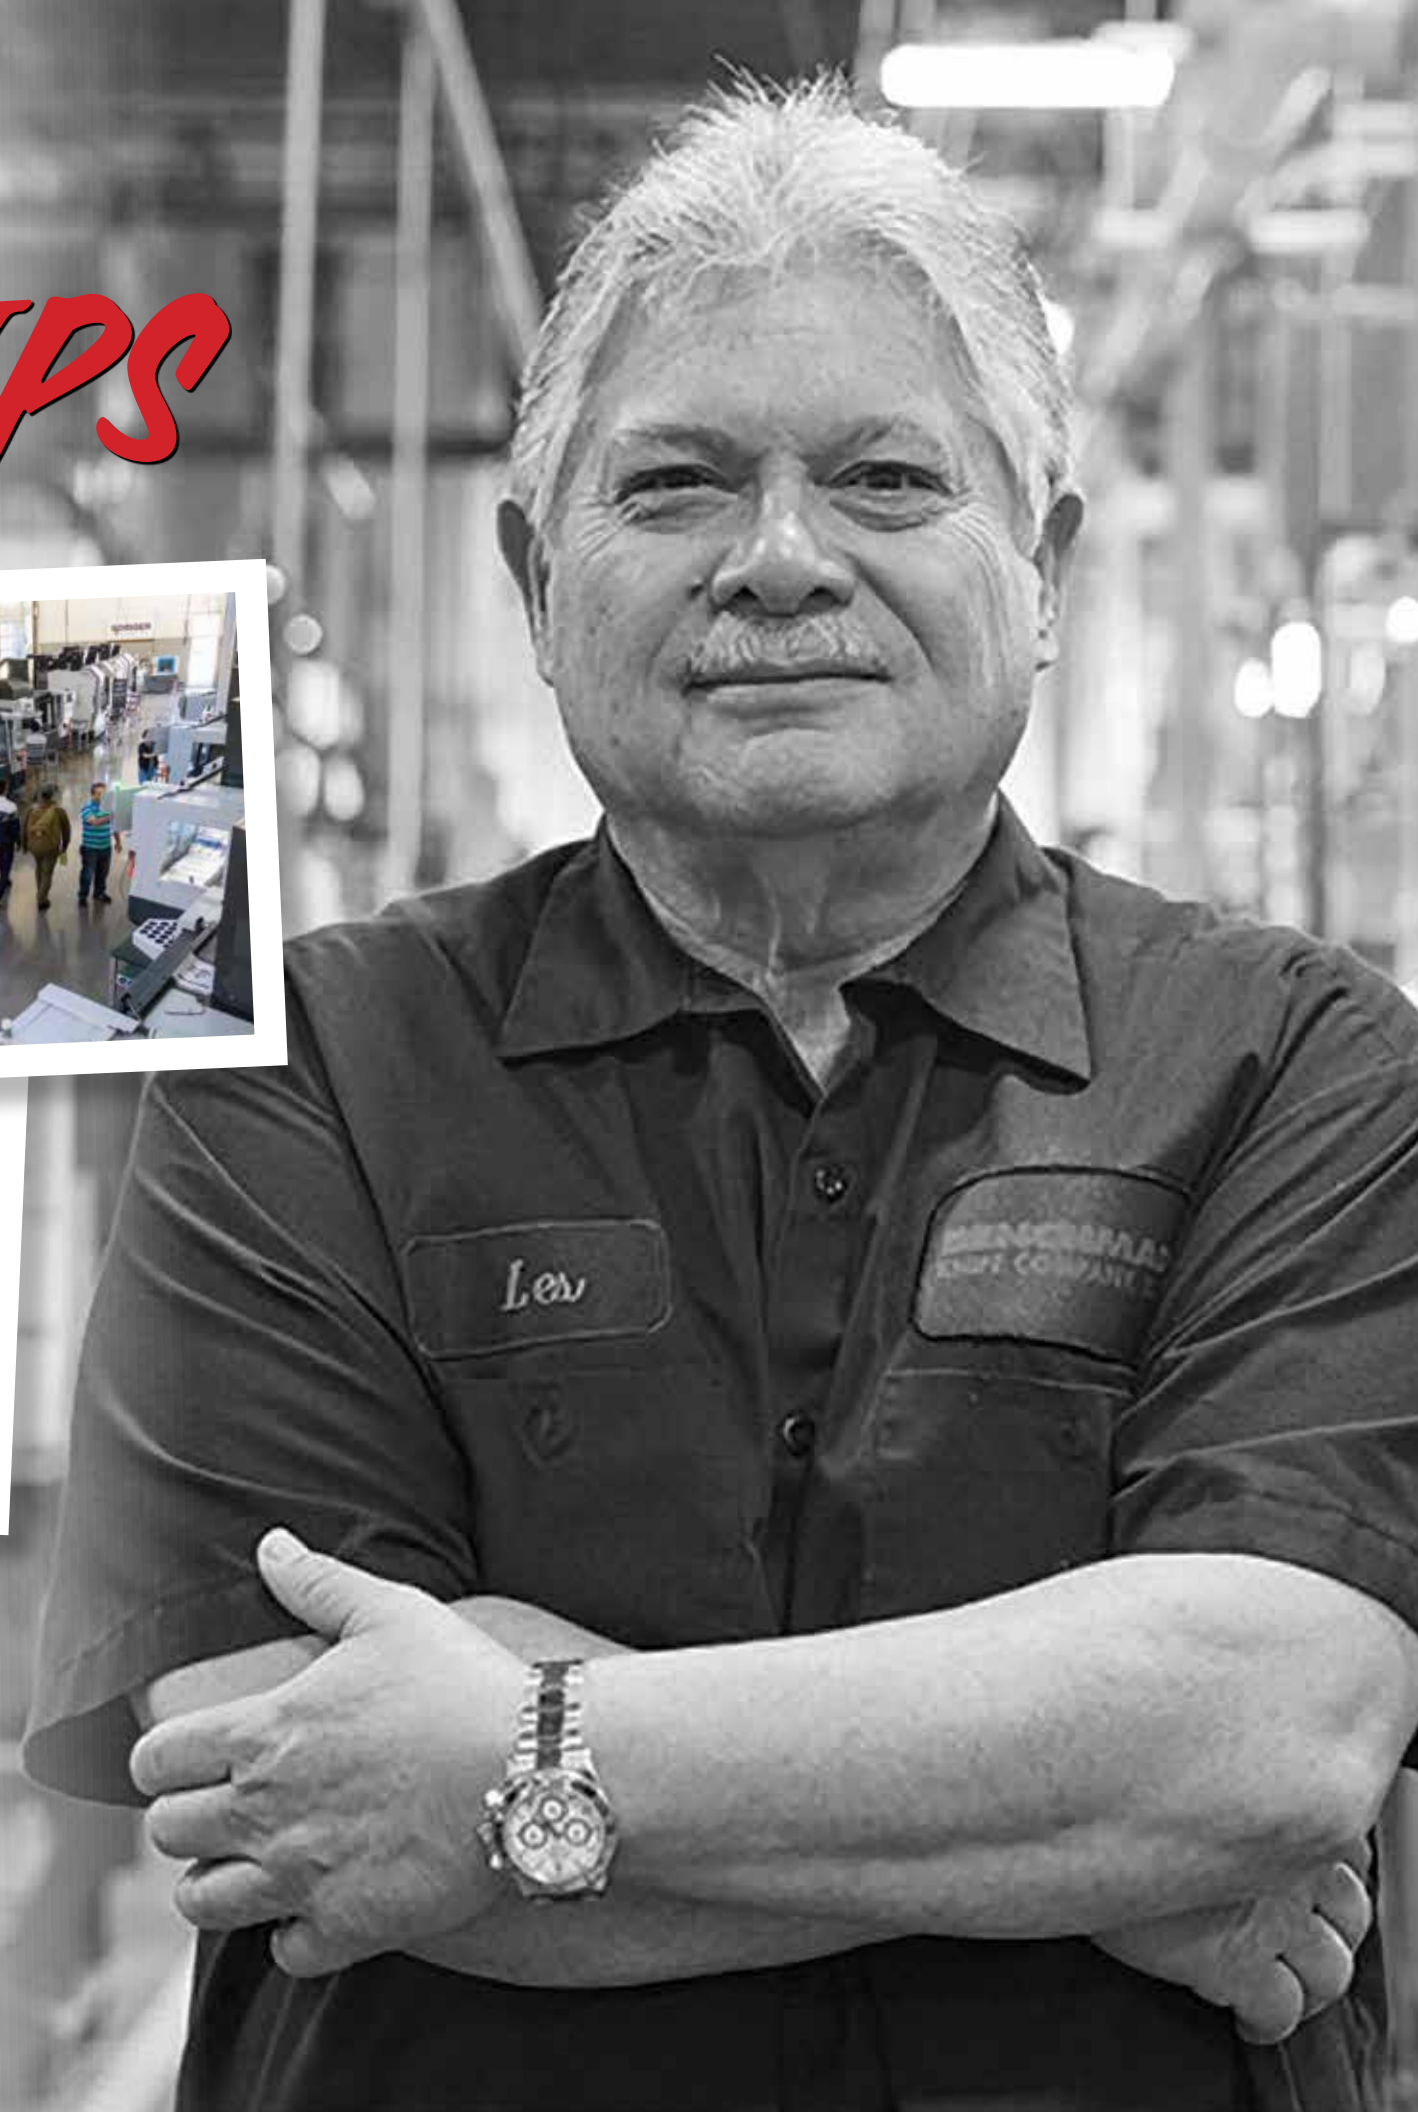

- The CCC nursing program has been voted best in state by RegisteredNursing.org.
- Forty-eight nursing students received scholarships during the 2020-21 school year.
- More than \$150,000 has been raised to support students in the nursing program this year.

Building PARTNERSHIPS

The Les de Asis Makerspace

For over 20 years, Les de Asis, founder of Benchmade Knife Company, partnered with Clackamas Community College, educating students and industry leaders with his contagious and entrepreneurial presence. We were deeply saddened by his passing in 2020.

To honor his profound impact in our community, the new makerspace in the college's Holden Industrial Technology Center on the Oregon City campus is now named in memory of Les. His tenacious and innovative spirit embodies this center for invention, designed for use by community members, students throughout multiple programs, and employers.

The naming of the makerspace after Les is fitting as he started his business by designing and building knives in his garage. Benchmade knives are now coveted around the world. The makerspace will provide opportunities for similar entrepreneurs with exploration, skill-building and business development.

An industrial workshop like this does not exist anywhere else in Clackamas county.

To ensure the makerspace is accessible and affordable to all people in the community, Benchmade, the de Asis family, and Les' colleagues and friends nationwide have donated in support of the Les de Asis Makerspace. To date, this project has generated over \$100,000 in donations to get this program started, funding operational and program needs.

CCC is treating the makerspace like a start-up, with the assumption that sustainability can be achieved as news of its presence in the community generates greater demand. Based on this growing demand, the makerspace will create financial resources through college support, donations, and user fees.

Thank you to the donors of
CCC's Les de Asis Makerspace

**Special thanks to:
Benchmade Knife
Company and

Helping the COMMUNITY

The first few weeks of September 2020 devastated our community. Shocking wildfires ripped through precious Oregon lands and towns. Like many residents throughout the county, you may have had to evacuate and find shelter elsewhere. Tragically, some of you may have even lost your homes and businesses.

It was an incredible feat for CCC to respond to. At first, our Oregon City campus became a designated Red Cross shelter for evacuated residents and their animals. Then, up to 1,000 first responders from every part of the state were stationed at a fire camp on campus as they worked against the Riverside fire.

It became quickly apparent that these heroes would need round-the-clock resources through the college like food, showers, and shelter to sustain them.

In less than 12 waking hours, neighbors, evacuees, and distant friends donated to CCC's support of first responders. Just over \$25,000 supplied them with endless coffee refills, warm meals from CCC's cafe, and lunches to take with them during their 12-hour shifts.

It was encouraging for the next generation of first responders, too. Additional funds raised to support the fire camp would later provide scholarships for essential protective gear for enrolled students seeking to complete their field training in CCC's wildland firefighting programs. CCC's fire science program provides education and training that can lead to seasonal or permanent employment with state, federal and private contract firefighting or within the timber industry.

* first-time donor in 2020

Your bond dollars **AT WORK**

In November 2014, voters in the Clackamas Community College district approved a \$90-million bond measure that was used to update and expand college classrooms and labs and modernize equipment to meet industry standards. Passage of the bond also resulted in CCC receiving \$32 million in state matching funds, which were used to support Harmony West, the Holden Industrial Technology Center, the DeJardin/Pauling Science Complex, and the Welcome Center.

As the last bond project broke ground in March 2020, we wanted to give you a look back and celebrate all that was accomplished with the tremendous support of our community. Here are some of the highlights.

>>>>

HARMONY WEST

Completed in the fall of 2017, Harmony West allowed CCC to continue to grow its health science, workforce development and general education offerings on the Harmony Community Campus. Students can now start and complete a number of academic career pathways at this location. Harmony West replaced the 61-year-old former OIT/Dale Ickes Junior High building.

HOLDEN INDUSTRIAL TECHNOLOGY CENTER

Completed in 2018, the Holden ITC increases teaching, training, and partner space, as well as creating flexibility to meet the changing training needs of regional partnership programs. The Renewable Energy Technology Lab opens to an exterior covered workspace and the Flex Lab contains a range of robotics and trainers.

DEJARDIN EXPANSION

The 35-year-old science complex on the Oregon City campus was outdated and contributed to class overcrowding and long wait lists, which both contributed to increased student time to completion and lower retention. This project doubled the college's chemistry lab capacity and additional biology classes can be offered due to efficient prep space. This project was completed in 2019.

AUTOMOTIVE REMODEL

In January 2020, Clackamas Community College opened its garage bay doors to its newly remodeled and expanded Automotive Department. The remodel and expansion provides students and instructors the space they need for a productive learning environment. Students learn hands-on, with state-of-the-art equipment, in a space that mimics real shops.

OPENING OCTOBER 2021! WACHENO WELCOME CENTER

In the spring of 2020, we began construction on the renovation of the Community Center and building the Wacheno Welcome Center, allowing the college to co-locate critical support services such as veterans services, disabilities resources, and career coaching, in one convenient location, ensuring students stay in school and on track with their career and academic pathways.

CCC Foundation is offering a limited number of naming opportunities for the Wacheno Welcome Center. These opportunities provide recognition to a group of dedicated citizens and organizations who support community college education. These education partners (advocates) will support crucial student funding for the Wacheno Welcome Center, stewarding scholarships and wrap-around services, creating career readiness and success through CCC.

If you are interested in adding your name or a tribute for a loved one in the Wacheno Welcome Center, please contact the CCC Foundation at (503) 594-3421.

Thank you COMMITTED DONORS

We want to give special recognition to our steadfast donors who have supported CCC students and programs faithfully for decades. You are the building blocks of the Foundation and your support has changed the lives of tens of thousands of students and families. Thank you for moving students forward for over 30 years!

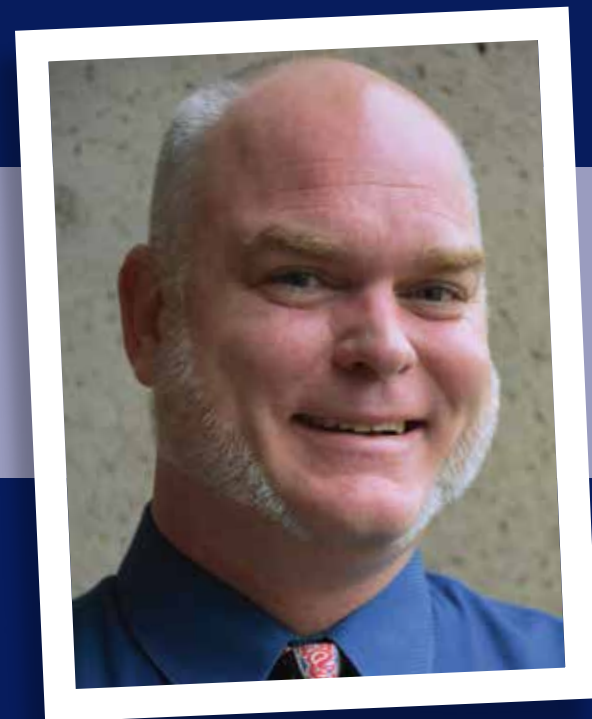

"I've always tried to give the students a pat on the back and a helping hand. CCC has always met and often exceeded my expectations. I'm very proud to help meet the Foundation's goals in support of students. It makes me feel good and I know it will make a difference in their lives. What could be better?"

— **Punky Scott**, 25 year committed donor and Foundation board member

"I give to the Foundation because I see the impact of it every day. I give to the Foundation because ALL students have a fair shot at receiving a scholarship--it's not a longshot."

— **Casey Sims**, 15 year committed donor and CCC student counselor

By The Numbers

2020-21 ENROLLMENT

Total Student enrollment: 17,625
Full-time enrollment: 4,759
Average age: 30

FINANCIAL AID

Annual full-time tuition: \$4,860
2,287 students received grant or scholarship aid

2020-21 SCHOLARSHIPS

Total amount awarded in scholarships: \$737,127
Number of scholarships awarded: 341
Students who received a scholarship: 253
Average scholarship award: \$2,161

GIFTS BY DESIGNATION

These numbers exclude gifts in-kind and pledges.

Greatest need*: \$542,715
Instructional support: \$298,630
Capital projects: \$570,000
Scholarship and student support: \$999,677
2020 total gifts: \$2.5 million

2020-21 ENDOWMENT DISTRIBUTIONS

Scholarships: \$363,990
Funds for Excellence/Instruction: \$139,290
Operations: \$143,793

*Greatest need supports students and campus-wide programs and includes dollars generated through annual giving and events.

The President's Circle

The President's Circle is a dedicated group of citizens who enhance programs and support Clackamas Community College students in a significant way. By contributing \$1,000 or more each year, President's Circle members are instrumental in ensuring student success.

Education That Works

The life-changing impact on students and programs that these numbers, and the stories in this report, represent would not be possible without your steadfast support. We are proud of how our community modeled resilience in the past year. Together, you rallied with the college and kept students moving forward during an incredibly difficult and unprecedented year. On behalf of the CCC community and the leadership of the Foundation, we say THANK YOU!

In gratitude,

World of Speed leaves lasting legacy

Oregon car enthusiasts lost a treasure in the spring of 2020 when the **World of Speed** motorsport museum in Wilsonville closed its doors. Though sadly another victim of COVID-19, the World of Speed left a lasting impact with departing gifts to schools and nonprofits across the state, allowing its legacy to live on for future generations.

automotive technology program and its current and future students. The generous donation is being used for student scholarships in the automotive program. This generous gift paves the way for funding to provide tuition, tools for employment, and internships for students seeking career development and technical training, allowing them to cross the finish to graduation and into a living-wage job.

In December of 2020 the Clackamas Community College Foundation received a **\$375,000 donation** to benefit CCC's

The Clackamas Community College Foundation thanks World of Speed for its generosity and commitment to automotive education!
